AUCTION #23

Closing December 2, 1990, Sunday, 6:00 p.m. USA Pacific Time

The Books List is enclosed along with the catalog, a bit longer this time. There are extensive British and German listings as well as some Russian and Arabic tokens. There is a batch of Latin American Unidentifieds and I look forward to hearing from you about them. There is an increase in the Bidder's Fee from 5% to 7% and bids will not be reduced below \$25.00. The costs of running these sales is just too high. Thanks for your patience.

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". Grading can be only approximate in a series as varied as tokens. Especially when tokens are crudely made, grading is at best subjective. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind. Comments on my listings and methods of operation are always welcome.

MAIL BID SALE RULES AND TERMS

(Please note changes.)

1. The sale closes at 6 p.m. USA Pacific Time on the date noted above or until 15 minutes pass with no telephone bid. Lots are sold to the highest bidder. In the event of tie bids the lot goes to the earliest arriving bid. Bids of only a few cents difference will be considered tie bids.
2. Bids must be in U.S. Dollars and those under \$3 are respectfully declined.
3. Winning bids will be reduced to a 10% advance over the next highest bid, or the Reserve (Minimum Bid) if any. In the event there is only one bidder, bids will be reduced to the published estimate, but not lower. The maximum reduction will be 50% of the highest bid in any case. Bids will not be reduced under \$25. In general acceptable bids will be those that are at least 60% of the published estimate.
4. Successful bidders will either be billed first or sent winning lots with the bill if they are established customers. Postage, shipping and insurance costs will be added to the invoices where such are appropriate. There will be a minimum charge of \$1 for postage and processing. A Bidder's Fee of 7% or \$1 will be added whichever is higher. California residents must pay 6.25% Sales Tax. Overseas customers must accept responsibility for postal delivery.
5. Prices Realized: please order them when you submit your bids. Do not send payment. I will include the cost with your bill, \$1 per copy.
6. Lots may be returned within 10 days of their receipt only if there is a major error in the description or in the material sent. Please check the shipments for such and keep a copy of the bids you submit. Please pay within 5 days.
7. Lots Made Up of Multiple Pieces: In most cases these consist of items which are a) very common, b) badly worn or damaged, c) issued after 1950, d) of little collector interest or e) all of the above. Please bid accordingly. I try to describe them as much as I can afford the space, but because of their nature descriptions have to be limited.

BIDDING BY TELEPHONE? My number is (415) 648-8634. The best hours to reach me are 7-9 a.m. USA Pacific Time. However the least expensive and most certain means to bid is by mail even if only on a postcard. At times business may keep me away from the phone for days. I will accept bids over the phone and current bid levels are available from the computer. However if you request such information, you must bid at least 10% over the highest in order to have your new bid qualify. For items quoting under \$10, you must bid at least \$1 more to qualify. For those who like to call in bids at the last minute, I will have all current bids posted during the last week before closing, but often at the end of the last day this is not possible when they come in rather quickly. 98% of all successful bidding is accomplished with high bids by mail.

MAIL AUCTION #23

Prices Realized

The left hand column below is the Lot number. Lots not listed received no bids or else received those too low for consideration. The middle column is the auction price rounded to the nearest US dollar, although in many cases the actual amount may have been somewhat above or below that given. The figure in parentheses is the number of those bidding for any given lot.

MAIL AUCTION #23

Prices Realized

The left hand column below is the Lot number. Lots not listed received no bids or else received those too low for consideration. The middle column is the auction price rounded to the nearest US dollar, although in many cases the actual amount may have been somewhat above or below that given. The figure in parentheses is the number of those bidding for any given lot.

(There were two WWI Light
Cruisers named the Karlsruhe. The
first, off the ways in 1912, was
assigned as a raider to the coast
of Brazil where it sank some 14
enemy ships. It went down itself
from an unexplained explosion
near Trinidad in 1914.

(The second was ready in 1916,
served in Europe and was finally
scuttled at Scapa Flow in 1918.
As the token is brass it was
probably struck before or early
in WWI. After that time tokens
tended to be made of iron or
zinc.)

One of the early naval dramas of WWII involved the German "Pocket Battleship" **Admiral Graf Spee**. The ship had been commissioned in 1936 and assigned to patrol duty off the Spanish coast during the Civil War. When the world war started it was assigned as a raider in the Indian and South Atlantic Oceans where it had accounted for nine Allied ships. Late in 1939 it began a fight with the British heavy and light Cruisers **Exeter** and **Ajax** and the New Zealand light cruiser **Achilles**. After a day's battle in which all vessels were heavily damaged the **Graf Spee** was forced to enter the neutral port at Montevideo, Uruguay on the 13th. Under orders from Berlin the **Graf Spee** was scuttled on December 17 in full view of Montevideo sightseers who had gathered on the docks. (See Lot. 924.)
